The Yearbook is developed under a contract with the OECD as part of the project **Regional Mechanisms for the Low-Carbon, Climate-Resilient Transformation of the Energy-Water-Land Nexus in Central Asia**. This project is implemented by the OECD in collaboration with SIC ICWC, EBRD, UNECE, and FAO, with support from the German Federal Ministry for the Environment, Nature Conservation and Nuclear Safety (BMUV) through the International Climate Initiative (IKI). For more information about the project, visit: <https://oe.cd/well-nexus>.
